Dear Mr Ntuthuko Shezi

Welcome to Macadamias South Africa NPC (SAMAC)

Your SAMAC membership application was approved by the Board of Directors, and we would like to take this opportunity to welcome you to Macadamias South Africa NPC (SAMAC) as an Associate Member. Your unique membership code is: A0109.

Macadamia production in South Africa is growing steadily due to large plantings in the past few years. SAMAC is an association of macadamia industry role-players that aims to do things that individuals are unable to do on their own. A strong and effective SAMAC is viewed as an important component of the future success of the macadamia industry. The underlying philosophy of the association is the view that, in the long term, what is good for the industry is good for the individual.

SAMAC also currently has 30 research projects focussed on the control of pests and diseases (felted coccid, polyphagous shot hole borer, stink bugs, nut borer complex, husk rot, flower blight, thrips and Phytophthora) and improved management practices (fertilization, water usage, ridges, soil health, biocontrol agents and bees) and regularly provide feedback on research and engagements with various forums and government. To have access to any news and articles regarding the macadamia industry please visit our website (www.samac.org.za) and also install the SAMAC apps on your mobile device. For guidance on how to install the Apps, please visit the links below to find the step-by-step procedure guidelines:

- SAMAC APP - <https://www.youtube.com/watch?v=O668R3lQwXw&t=11s>

If you have any query, kindly do not hesitate to contact SAMAC.

Kind regards

Lizel Pretorius
Chief Executive Officer
